## PARTNERSHIP APPROACH ACHIEVES HIGH QUALITY PROJECT EXECUTION FOR JAPANESE PHARMACEUTICAL FIRM

Astellas Pharma Inc is a Japanese pharmaceutical company with more than 18,000 employees world wide and is a company that embraces its core values with CSR at the heart of its management approach.

Designed by Pringle Brandon Perkins and Will, and project managed by CBRE, the offices feature a reception area, large scale conference room, an integrated breakout area combined with pantry to promote collaboration in an informal environment, plus IT function areas to host the server and printing facilities.

Summertown's partnership approach ensured that the delivery of the project was achieved ahead of schedule whilst maintaining the highest quality in terms of finishing. The superior management of the MEP installation was praised by MEP consultant Chapman and Bathurst, cited as one of best seen in the last year. Overall, the seamless project delivery resulted in minimal snags for the client post project handover.

Summertown was acknowledged for its proactivity in project delivery by all parties involved, ensuring that submissions and approvals were carefully managed enabling the client to move in to their new office premises on time.

Duration: 12 weeks

Size of project: 500 sq m
